FY 2015

Report to the Legislature

As required by

Minnesota

Statutes

120B.13

## **Cost of Report Preparation**

The total cost for the Minnesota Department of Education (MDE) to prepare this report was approximately \$ 7,700. Most of these costs involved staff time in analyzing data from surveys and preparing the written report. Incidental costs include paper, copying and other office supplies.

Estimated costs are provided in accordance with Minnesota Statutes 2011, section 3.197, which requires that at the beginning of a report to the Legislature, the cost of preparing the report must be provided.

# 2015 Report to the Legislature

# **Rigorous Course Taking**

#### **Rigorous Course Taking: Overview of Legislation**

The Minnesota Legislature has appropriated funding to support the development of Advanced Placement (AP), International Baccalaureate (IB), Concurrent Enrollment, and Postsecondary Enrollment Options (PSEO). These programs, designed to offer pathways, opportunities and preparation for the world beyond high school, continue to increase in both student enrollment and success for Minnesota students. In FY 2014-15, the legislative appropriation for the Advanced Placement (AP) and International Baccalaureate (IB) programs was \$4,500,000, with \$500,000 of that funding earmarked specifically for teacher training. In addition, the appropriation specified, "The advanced placement program shall receive 75 percent of the appropriation each year and the international baccalaureate program shall receive 25 percent of the appropriation each year." <u>View Minnesota Statutes, section 120B.13</u> (see <u>Appendix A</u>. Advanced Placement and International Baccalaureate Programs).

Courses taken through the Postsecondary Enrollment Options (PSEO) program and through concurrent enrollment programs are also supported through separate funding formulas, with PSEO payments made to postsecondary institutions, and concurrent enrollment reimbursements provided directly to participating school districts. <u>View Minnesota Statutes, section 124D.09 and 124D.091</u>.

This report will describe specifics and progress of each of the four above mentioned programs: AP, IB, PSEO and Concurrent Enrollment.

# Advanced Placement (AP) Program Description

The Advanced Placement Program is a cooperative educational endeavor between secondary schools and colleges and universities. Since its inception in 1955, the College Board Program has provided motivated high school students with the opportunity to take college-level courses in a high school setting. The program consists of 37 college-level courses and standardized exams that assess proficiency in these courses. The College Board supports secondary schools by providing facilitated teacher training and a curriculum of high academic intensity and quality that enables students to meet the standards for college-level learning in these subjects. Most colleges and universities in the United States, as well as institutions in 30 other countries, use AP exam results in the admissions process as a designation of a student's ability to succeed in rigorous curricula. Colleges may award credit and/or placement into higher-level college courses so that college entrants can move directly into the courses that match their level of academic preparation.

Advanced Placement is open to any secondary school that is willing to organize one or more courses, foster teacher development and administer the AP Exams. All AP exams (except Studio Art, which is a portfolio assessment) consist of dozens of multiple-choice questions scored by machine, and free-response questions (essays, translations, problems), which are scored at the annual AP Reading by more than 10,000 college faculty and secondary AP teachers.

All schools wishing to label a course "AP" must first receive authorization for each course by completing the AP audit process, which involves submitting a copy of the course syllabus for review by college faculty. The AP course audit provides clear guidelines on curricular and resource requirements that must be in place and helps colleges better interpret courses marked "AP" on students' transcripts. For further information about the program, <u>Visit the College Board website for more information about Advanced Placement</u>.

Minnesota is in its 24th year of providing AP exam fee support for students. In 2015, 314 public and non-public schools offered AP courses. The number of students testing and exams taken in FY 2015 continued to demonstrate significant gains on AP exams and student participation.

#### Minnesota Advanced Placement Program Participation

AP exam subsidies were again available for public and non-public school students. In 2015, the state reimbursed \$53 per exam for category one students (fee-reduced, low-income) and \$40 per exam for exams taken by category two students (non-fee-reduced).

AP Exam Fees	Fee-reduced students	Non-fee-reduced students
Cost of Exam	\$91	\$91
College Board reduction	\$29	\$0
School rebate	\$9	\$9 (optional)
MDE reimbursement	\$53	\$40
Total Cost to Students	\$0	\$42 or \$51 (if school does not waive rebate)

The College Board waived \$29 per exam for all fee-reduced students and, if schools also waived their \$9 exam administration rebate from the College Board, the state reimbursement covered the entire cost of these exams. Schools were invoiced \$53 per category one exam.

The charts below provide a snapshot of the Minnesota student performance in 2015 on AP exams as well as an overview of the 2015 Minnesota AP test takers, disaggregated by score, gender, and ethnicity.

#### **Overview AP Test Scores 2015**

Advanced Placement Tests	Total	Score of 1	Score of 2	Score of 3	Score of 4	Score of 5	Percent of 3 +
Total Number	70,699	9,377	14,793	20,364	16,098	10,067	<b>66%</b> (46,529)

#### **Overview of AP Test Takers 2015**

Gender	Total	Percent
Male	19,930	47%
Female	22,884	53%
Total AP test tak	ers: 42,814	

The charts below details the participation in AP programs over the last seven years. Of note are increases in total participation by students of 41 percent, and the number of exams 43 percent and students of color of percent of 62 percent. With this growth, the chart also shows a slight increased participation in teacher training opportunities as these programs grow.

\* Source: The College Board

\*\*Data Source: Annual AP Program Application submitted by districts to Minnesota Department of Education.

\*\*\*Minnesota Automated Reporting Student System (MARSS)

In May 2015, 42,814 students took 70,699 exams with 46,529 exams (or 66 percent) earning a score of three or above on a five-point scale, indicating proficiency. If all students who earned a score of three or above and were awarded credit by their postsecondary institution, the resulting value to Minnesota families through credits earned at Minnesota postsecondary institutions is potentially \$22,473,507 at MnSCU state colleges (average \$161/credit x 3 credit course x 46,529), \$32,244,597 at MnSCU state universities (average \$231/credit x 3 credit course x 46,529), and \$61,418,280 at the University of Minnesota (average \$440/credit x 3 credit course x 46,529).

See Appendix B. Advanced Placement Public School and Nonpublic School Reimbursements

In the past seven years, high schools in Minnesota have increased the number of students gaining access to and experiencing success in AP, and the population of AP exam takers is increasingly diverse, most significantly in the African American and Latino student groups.

AP Student Demographics	FY09	FY10	FY11	FY12	FY13	FY14	FY15	Percent Increase (2009-15)

#### **AP Exam Profile**

An AP exam score of three or higher can translate into college credit once a student enters a postsecondary program. Minnesota data indicates annual significant increases in exam participation along with steady growth in the number of exams scoring three or higher.

Ethnic Group	AP Scores 3+
Not Stated	769
American Indian or Alaska Native	108
Asian, Asian American, or Pacific Islander	4,701
Black or African American	967
Mexican or Mexican American	509
Puerto Rican	85
Other Hispanic, Latino, or Latin American	565
White	37,861
Other	954
Total all groups	46,519

Data Source: The College Board

Minnesota data has shown improvement over time in the performance of low-income students on their exams. The chart below disaggregates the passing scores on exams by race in 2015.

Also, in 2015, 167 public school students taking AP exams self-identified as Limited-English proficient.

AP Exam Participants	FY09	FY10	FY11	FY12	FY13	FY14	FY15
Limited-English Proficient	170	186	159	168	398	160	167

## International Baccalaureate (IB) Program Description

The International Baccalaureate (IB) is a non-profit, educational foundation established in 1968, offering four highly respected programs of international education that span the primary, middle and secondary school years. The Primary Years Programme (PYP) is designed for students aged 3-12; the Middle Years Programme (MYP) for students aged 11-16, the Diploma Programme (DP) for students aged 16-19, and the IB Career-related Programme (CP) is designed for students aged 16-19 to engage in career-related learning. Schools must complete an extensive application process to become authorized IB World Schools and offer these programs. The IB works with 1,220,000 students attending 3,923 IB World Schools in 147 countries worldwide.

The Diploma Programme (DP) is a comprehensive two-year international curriculum available in English, French and Spanish. The DP offers 157 exams in 51 disciplines that generally allow students to fulfill the requirements of their national or state education systems. Students who participate in the full Diploma Programme are required to study and examine in six different academic subjects. At least three of the six subjects are taken at the higher level where students study the subject area in depth for two academic years totaling 240 hours. Challenging, standard level IB courses span one academic year and total a minimum of 150 hours. Students who are not diploma candidates can choose to take individual IB courses and subsequent exams to earn IB certificates.

The format of exams is both written and oral and includes essay, multiple choice and short answer questions. In some subject areas, students also prepare a portfolio for assessment. Each subject has at least two exam periods for different types of exams for a total of four hours of examination. Each examined subject is graded on a scale of one to seven (maximum). The award of the diploma requires a minimum total of 24 points and satisfactory completion of the following three additional requirements:

- The Extended Essay is approximately 4,000 words, requiring students to write an independent, original research paper in one of the six subject areas;
- A critical thinking course known as Theory of Knowledge explores the relationships among the various disciplines and ensures that students engage in critical reflection and analysis of the knowledge acquired within and beyond the classroom; and,
- A minimum of 150 hours participation in Creativity, Action and Service (CAS), which are extracurricular community-action service, artistic and physical activities.

View more information about the International Baccalaureate on their website (http://www.ibo.org).

#### Minnesota IB Program Participation

In 2015, 74 IB programs were in place in 69 'authorized' Minnesota schools. Some schools implement several programs (e.g., DP and MYP or MYP and PYP in the same building). The chart below shows the number of Minnesota schools offering IB programs. Additionally, there are nine programs seeking authorization by the International Baccalaureate Organization to become an IB World School. Participating schools receive support and guidance through the Minnesota Department of Education (MDE), Minnesota Association of IB World Schools (MNIB), the International Baccalaureate of the Americas (IBA), and the International Baccalaureate (IB). (Appendix C. Minnesota International Baccalaureate Schools Reimbursements FY 15.)

Authorized IB Schools	FY09	FY10	FY11	FY12	FY13	FY14	FY15	Growth Since FY09
DP Schools	14	18	20	20	20	20	20	+6
MYP Schools	11	17	17	21	22	22	23	+12
PYP Schools	9	15	17	18	22	23	24	+15
CP Schools				2	2	2	2	
TOTAL	34	50	54	59	67	67	69	+35

Data Source: Minnesota Association of IB World Schools

In 2015, the total number of students testing at the Diploma Programme level increased three percent, from 3,553 to 3,651. These students took 7,698 exams, with 4,423 (57 percent) earning a score of four or above on a seven point scale. The overall number of low-income students and students of color has more than doubled in the past seven years. Students of color represent 33 percent of students testing and 33 percent of IB exams taken. Students can elect to take individual IB courses or the full IB diploma. In 2015, 197 Minnesota students earned the full IB diploma.

Diploma Program (DP)	FY09	FY10	FY11	FY12	FY13	FY14	FY15	Percent Increase (2009-15)

Diplomas Earned	157	144	173	191	287	222	197	64%

Data Source: International Baccalaureate

See Appendix D for a list of Minnesota International Baccalaureate World Schools.

Brooklyn Center, South Saint Paul and Fridley Public Schools have district-wide IB programs that serve all elementary and middle school students in those districts. Approximately one-third of all Minnesota IB schools are in Minneapolis (11) and St Paul (8). There are 26 districts, charter schools and private schools with IB programs. All are located in the metro area, except: Grand Rapids, Forest Lake, St. John's Prep, Rochester Montessori and Rochester Arts and Science Academy.

At this time, there are nine programs preparing to become authorized IB World schools. In order to become authorized, a school or district must go through five specific steps including a feasibility study/strategic planning process - comprehensive school changes to curriculum, instruction, and professional development that occurs during the two-step application process. After this has been completed, schools undergo a site visit from the IB Americas. After a successful visit, the school then achieves the Authorized IB World School status. Follow up visits are required to maintain their IB authorization.

In 1992, IB developed a Middle Years Programme (MYP), which offers a broad academic base along with Approaches to Learning and other areas of interaction for students in grades 6-10. The MYP can be a stand-alone program or part of the pre-IB preparation for the Diploma Programme. In Minnesota in 2015, there were 23 Middle Years Programmes (MYP) in 27 schools, all located in the greater metro area.

The Primary Years Programme (PYP) was developed in 1997. It offers an inquiry-based program for students in pre K-5th grade. In 2015, 24 schools were authorized to offer the PYP. The PYP and MYP schools also go through a comprehensive process to become authorized. Both the MYP and the PYP are school-wide models that serve all students.

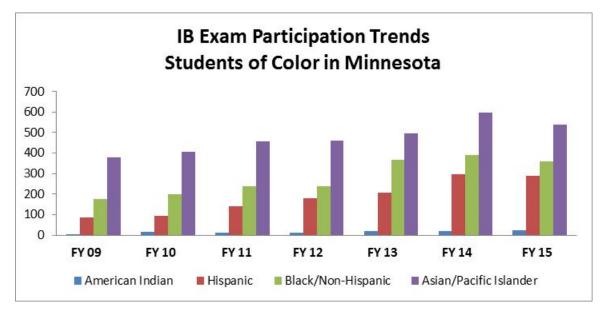

The IB Career-related Programme (CP) was introduced in 2012. The CP builds on prior learning in the IB Middle Years Programme and incorporates elements of the IB Diploma Program. Through CP, students have the opportunities for career and technical training along with rigorous academic work to earn a Career Certificate. In 2015, there were two CP programs, both within the Minneapolis Public School District.

The IB programs in Minnesota have evidenced significant growth each year in the numbers of students of color (81 percent increase) and low-income students (123 percent) taking IB exams. The following charts below provide a profile of the IB landscape in Minnesota.

IB Funding	FY09	FY10	FY11	FY12	FY13	FY14	FY15	Percent Increase (2009-15)

In 2015, 69 public and non-public schools provided IB programs. The number of students testing and exams taken in FY 2015 continued to demonstrate significant gains. In 2015, 3,651 students took 7,698 exams with 4,423 exams (or 57 percent) earning a score of four or above on a seven point scale, indicating proficiency. If all students who took IB courses, earned a score of four or above on the exams, and were awarded credit by their postsecondary intuition, the resulting value to Minnesota families through credits earned at Minnesota postsecondary institutions is potentially \$ 2,136,309 at MnSCU state colleges (average \$161/credit x 3 credit course x 4,423), \$ 3,065,139 at MnSCU state universities (average \$231/credit x 3 credit course x 4,423), and \$ 5,838,360 at the University of Minnesota (average \$440/credit x 3 credit course x 4,423).

Data Source: International Baccalaureate

A demographic breakdown of both students who tested and the number of exams taken indicates a greater percent increase over the seven year period among students of color as compared to white students, with the greatest increase in the American Indian population. African American and Latino students groups also realized significant participant increases. (Data Source: International Baccalaureate).

Minnesota data has shown consistent improvement over time in the performance of low-income students on their exams. The chart below disaggregates the passing scores on exams by race and income level in 2015. Low-income participants include those students who were identified as meeting the federal guidelines for free or reduced lunch. On a scale of 1-7, passing scores are 4 or higher.

		Lo	w Inco	me		Not Low Income

# Teacher Training and Exams: Advanced Placement and International Baccalaureate

During the 2014-2015 fiscal year, in-depth teacher training was conducted by certified AP and IB trainers and providers. The training, provided through the College Board (AP) and International Baccalaureate (IB), is designed to prepare teachers to deliver rigorous college level curriculum in the secondary setting and challenging academic experiences in the middle and primary grades.

In support of Advanced Placement, the Minnesota Department of Education (MDE) has worked closely with the Minnesota Advanced Placement Advisory Board (MnAPAC), Augsburg College and Carleton College to facilitate in-depth training for AP teachers. In the summer of FY 2015, Carleton trained 358 teachers and Augsburg trained 84 teachers during the Advanced Placement Summer Institutes. Thirty-two AP teachers received out-of-state training. In addition, 442 teachers attended workshops at the University of Minnesota. In total 976 participants took part in these opportunities funded through this legislative appropriation.

MDE's support of IB teacher training is conducted through coordination with the IB, the IB Americas, and the Minnesota Association of IB World Schools (MNIB). IB teacher training is primarily offered at out-of-state sites. During 2015, out-of-state IB training was attended by 318 teachers, and 767 teachers participated in workshops and professional networking opportunities coordinated by the Minnesota Association of IB World Schools. In addition, special on-site trainings were offered in partnerships with specific districts and the International Baccalaureate. Twenty-two teachers participated in online training. A total of 1,107 participants attended some form of professional development for the IB program.

AP and IB exam fees for public and non-public students are subsidized by legislative action. Specific direction is given to require the state to pay all exam fees for low-income students. Combining the two programs, 46,458 students took 78,385 AP and IB exams in Minnesota in 2015, an increase of 4.5 percent in participating students, and 3.9 percent in number of exams taken. Minnesota is continuing to close the opportunity gap for underrepresented students in these programs.

IB Teacher Training	FY09	FY10	FY11	FY12	FY13	FY14	FY15	Percent Increase (2009-15)
Total Teacher Training	820	1,018	1,294	1,254	1,271	970	1,107	35%

### Expenditures: Advanced Placement and International Baccalaureate

Since 2006, the Legislature has appropriated \$4,500,000 each year, to fund the costs of student exam fees and teacher training, with 75 percent of the appropriation designated for AP programs and 25 percent designated for IB programs. Additionally, at least \$500,000 each year is to be used to provide teacher training and support for AP and IB programs. Minnesota Statutes, section 120B.13 also directs the commissioner to pay all AP and IB exams fees for low-income students and to pay a portion of the exam fees for other public and non-public students. MDE was directed to work in consultation with the Minnesota AP Advisory Council and the Minnesota Association of IB World Schools to determine the manner in which the allocated funding would be distributed.

**In 2015, AP Teacher Scholarships** were available up to \$500 for in-state teacher training and up to \$900 for out-of-state training. Scholarships subsidize costs related to tuition, travel, room and board for AP teachers who attended training. The following criteria are used to determine out-of-state travel for AP: (1) training was not available in Minnesota or (2) dates at Carleton or Augsburg were not feasible for participants. Actual expenditures for AP teacher training were \$378,255.

**International Baccalaureate teacher training** in 2015 was offered both in-state and out-ofstate. In-state support programs and workshops were offered through the Minnesota Association of IB World Schools. Official IB teacher trainings were offered outside of Minnesota, and attended by 318 teachers. Actual expenditures for IB teacher training were \$441,954.

**AP Exam fees** were subsidized at a rate of \$53 per student, per exam for students of lowincome families applying for fee reductions that are provided by the College Board. Other students were subsidized at a rate of \$40 per student, per exam. Schools use free and reduced price lunch eligibility as the criteria for determining low-income students that qualify for the fee reduction. The College Board provided the \$29 fee reduction and the school is expected to waive the \$9 fee for students. Actual expenditures for AP exams in 2015 were \$2,985,336.

**IB Exam fee** subsidies for low-income students (based on eligibility for free or reduced-price lunch) were subsidized at the full cost of \$270 for the first exam and full cost of \$110 for each additional exam per student. All other student exams were funded at \$85 for the first exam and \$25 for each additional exam. Actual expenditures for IB exams in 2015 were \$734,175.

**The payment schedule** for exams has varied over time. The state distributes reimbursements to all AP and IB schools for exams and teacher training after exams have been ordered and teacher training has been completed. Schools must submit an application to apply for subsidies and then submit a copy of their Invoice to MDE. The budget for FY 2015 was \$4,500,000. Actual expenditures for exams and teacher training for AP were \$3,363,591 and \$1,176,129 for IB, bringing the total expenditures for FY 2015 to \$4,539,720.00.

\*\*Funding was dedicated to exams and authorized training only for FY 08, FY12, FY13 and FY14 for IB.

## **College Credits and Policies**

Participating colleges in more than 30 countries receive AP grades and grant credit or appropriate placement to students who have done well on AP examinations. The IB Diploma is accepted as an admissions credential at more than 1,000 North American Colleges and in more than 100 countries.

More than 90 percent of U.S. colleges and universities have an AP and IB policy granting incoming students academic credit, placement or both, for qualifying grades on AP or IB exams. Most public and private institutions in Minnesota have AP and IB credit policies. These courses are equivalent to college freshman level courses and with enough qualifying grades, students often enter college with a sophomore level standing.

As articulated in Minnesota Statutes, section 120B.13, Subdivision 3a,

"The colleges and universities of the Minnesota State Colleges and Universities system must award, and the University of Minnesota and private postsecondary institutions are encouraged to award, college credit to high school students who receive a score of three or higher on an advanced placement or four or higher on the international baccalaureate program examination."

Minnesota State Colleges and Universities (MnSCU) has adopted a policy establishing common practices among higher education institutions for awarding credit for scores of 3-5 in AP and scores of four-seven in IB. In Minnesota, 61 colleges and universities acknowledge Advanced Placement exam scores and 47 colleges and universities acknowledge International Baccalaureate exam scores. Large numbers of Minnesota high school graduates who participate in the AP and IB Programs are attending colleges out of state.

### Administration: AP and IB Programs

MDE is responsible for the administration of AP and IB program components as funded by legislation. The intent of the legislated funding is to assist public and non-public students in paying for AP and IB exam fees as well as providing essential teacher training for both programs.

MDE Staff Responsibilities:

- Communicate opportunities for exam fee subsidies to all Minnesota schools and students;
- Gather data from individual public and non-public schools regarding their AP and IB programs, including the number of students tested, exams taken, courses offered and teachers teaching an AP or IB course;
- Work with the College Board to create invoice forms for payment of AP fees;
- Work with the public and non-public schools to pay for exam fees for all AP and IB exams; and,
- Prepare documentation to provide direct payment of exam subsidies to AP and IB districts.
- Assist in the development, promotion, and evaluation of the teacher trainings.
- Work with the College Board and MAIB to support teachers and provide follow-up to training experiences.
- Process reimbursements for out-of-state and in-state training opportunities attended by educators.
- Process reimbursements to school districts for student exam fees.
- Prepare and maintain the AP and IB budgets;
- Prepare annual reports to the legislature and respond to legislative inquiries;
- Work with Minnesota public and private universities and colleges to prepare credit policies for courses earned through Advanced Placement and International Baccalaureate Exams;
- Provide information and present at conferences about these programs to groups of interested parents, educators and students;
- Respond to phone and e-mail requests from program coordinators, teachers, parents and students;
- Communicate regularly with AP and IB coordinators regarding program information, application reimbursement processes for exams and teacher training and payments to their school or district;
- Maintain update information via Ready Set Go, MDE website, outreach events, statewide conferences and workshops; and,
- Gather and report data to the media, higher education, secondary schools, and other organizations regarding student participation in AP and IB programs.

# **Recent Trends: AP and IB Programs**

#### 1. Increasing alignment and rigor in courses prior to high school

In an effort to increase the number of underrepresented and first generation college going students enrolling in and succeeding in postsecondary opportunities, they need preparation for and access to rigorous college-level work while still in high school. Additionally, students in middle school or earlier need access to support programs designed to motivate and prepare them for these courses. Minnesota school districts are increasing their efforts to offer aligned programs designed to enhance critical knowledge and thinking skills at the middle level or earlier. International Baccalaureate offers the middle years (MYP) and the primary years programs (PYP), while the College Board has developed both curriculum (Springboard) and assessments (AP-Potential) designed to support and identify students with the potential to succeed in rigorous courses. An increasing number of Minnesota districts and teachers are participating in professional development opportunities (Pre-AP) that intend to support vertical teaming and enhance the critical thinking skills required for student success in these courses and at the postsecondary level. In 2015, 41 percent more Minnesota students took 43 percent more exams than Minnesota students did in 2009. Additionally many districts are adding courses and programs designed to address "college knowledge" skills and behaviors at the middle level. Examples include the AVID program-Advancement Via Individual Determination and Ramp Up to Readiness.

#### 2. Promoting equity in rigorous courses

Both the AP and the IB Programs are committed to increasing student diversity in rigorous classrooms while simultaneously increasing their success. Although progress has been made to close equity gaps in participation and success among underserved minority and low-income students, challenges remain in Minnesota. The number of passing exams continues to increase along with increased participation of students of color. Our data continues to indicate that more underserved students from all demographic groups are participating in these programs, but their participation numbers are not yet representative of their numbers in our overall population. We have made continued strong progress as a state. Experts generally conclude that AP exam fee reductions are an effective way to increase the number of test-takers and tests taken per student. (*Examining the Cost Effectiveness of AP Exam Fee Subsidies for Underrepresented Students*; Hanover Research, February 2016).

#### 3. Funding.

Minnesota's legislative appropriation has provided critical support for the AP and IB programs. Projecting for 2016 and beyond, the continued growth in exam taking and increasing number of students engaged in both AP and IB will be difficult to maintain, however, the appropriations for these programs remains flat. The amount available for individual exam reimbursements continues to decrease as the number of student exams increases, potentially impacting student participation.

A federal Advanced Placement Incentive Program grant has allowed Minnesota to build an <u>access</u> <u>and equity website</u> (www.readysetgomn.org). This site is designed to utilize the power of technology to inform, support, and engage underrepresented students and their families in participating and succeeding in rigorous courses and postsecondary opportunities. We continue to expand resources available and the use of this site, utilizing digital tools to increase the participation of all students in courses preparing them and leading to postsecondary success.

#### **Recommendations: Advanced Placement and International Baccalaureate**

As the AP and IB Programs in Minnesota continue to expand, there is an ongoing need to provide challenging learning opportunities for all learners; to support teachers delivering this level of program rigor; and to encourage schools to initiate and/or expand AP and IB programs. Challenging, rigorous learning opportunities are essential to preparing students for success in postsecondary institutions. State accountability requires public reporting for student achievement, but in addition, Minnesota is reporting advanced academic opportunities, including AP and IB course information.

Specific recommendations for enhancing AP and IB programs in Minnesota include:

- Maintain and increase legislative support for student exams and teacher training;
- Utilize MDE's working relationship with the College Board and International Baccalaureate Organization to maximize opportunities for Minnesota students and families;
- Increase access to AP and IB courses among students in rural communities through regionally-based and online teacher training opportunities;
- Expand efforts to address the specific needs of underrepresented students, particularly African American and Hispanic males, through small, grant-based pilot programs and outreach to parent and community groups;
- Foster growth in Pre-AP and IB middle year and primary year programs;
- Increase offerings that prepare teachers for delivering rigorous courses;
- Support the development and expansion of AP and IB online courses and digital technology training to enhance face-to-face courses;
- Focus on increased student achievement and access to both programs.
- Support middle level and earlier programs designed to prepare all students for success in high school and beyond.
- Support the development and expansion of IBCP to leverage IBDP and Career and Technical Education learning opportunities, and to establish another pathway option for students.
- Support the elimination of entrance criteria to participate in AP or IB courses.
- Support more program re-design and course option efforts at the local to leverage limited resources to meet both student and community workforce needs.
- Support the use of rigorous course offerings to critical elements in local WBWF plans to help eliminate the achievement gap, increase graduation rates and career and college readiness goals.

# Postsecondary Enrollment Options (PSEO) Program Description

In 1985, Minnesota became the first state in the nation to pass legislation to support course taking at the postsecondary level by eligible high school juniors and seniors. The Postsecondary Enrollment Options (PSEO) program in Minnesota allows high school students to enroll in courses taught by college professors on college campuses, with each participating postsecondary institution setting its own enrollment requirements for admission. The program provides students with a greater variety of class offerings and the opportunity to pursue more challenging coursework than may be available at the high school. Students may enroll on a part-time or full-time basis. PSEO allows high school students to earn college credit at no cost and, after graduation from high school, to potentially enter into postsecondary institutions with some requirements already met. The postsecondary institutions generate a separate college transcript with their college courses and grades for the participating high school students. Legislation allows eligible 10th-grade students to enroll initially in one Career and Technical Education (CTE) course through PSEO. If the student earns a "C" or higher grade in this first course, she/he is eligible to take additional CTE courses while in 10th grade. In order to be eligible, a 10th-grade student must have taken the 8thgrade MCA reading test in the 8th-grade, and have met the composite proficiency level of "meets or exceeds."

Any public, nonpublic, home school or American Indian-controlled tribal contract or grant student classified as an 11th or 12th grader and accepted by a postsecondary institution may enroll either full- or part-time in nonsectarian courses or programs at that postsecondary institution. Students participating in cultural exchange programs are not eligible.

Eligible institutions include the University of Minnesota and its branches; all state universities, community colleges and technical colleges; private, Minnesota, two- or four-year, residential, degree granting, liberal arts colleges; non-profit, degree granting trade schools; or accredited opportunities industrialization centers in Minnesota.

The PSEO program is funded through legislative direction under MN Statute §124D.09. There is no cost for students to participate in this program. PSEO funding from the state that flows through MDE pays for tuition, fees and required textbooks at the postsecondary institution when students participate in PSEO.

# Postsecondary Enrollment Options (PSEO) Program Participation

Eighty-four Minnesota colleges and universities participated in PSEO during the 2014-15 school year. PSEO participation by public high school students has gradually increased between FY 2009 and 2015; low-income enrollment has grown by 78 percent, and accounts for almost 22 percent of participants. Participation in PSEO by black students has increased by 47 percent since 2008, although these students account for only 6.7 percent of the total participants. Participation by Hispanic students has dramatically increased by 153 percent, but accounts for less than 3.9 percent of the total participants. The majority of participating students (78.8 percent) are white.

PSEO Participants	FY09	FY10	FY11	FY12	FY13	FY14	FY15	Percent Increase (2009-15)

Source: The Minnesota Automated Reporting Student System (MARSS)

Minnesota statute appropriates funding for public, private and homeschooled students to participate in PSEO. In 2014-15, the average reimbursement per enrolled student was \$3,126, or \$190/credit. This has increased a small amount since 2008-09, when the average reimbursement was \$2,927 per student, or \$180/credit. In 2015, public school students accounted for 74.5 percent of those enrolled in PSEO, homeschooled students were 18 percent of enrollees, and nonpublic/private school students made up 7.5 percent of the PSEO population.

Year	Traditional (Nonpublic/private)	Home School	Public	Total	Average Credits Per Participant	Amount Paid to PSEO Institutions
08-09	766	1,925	5,687	7,500	16.30	\$21,952,433.00
09-10	621	1,525	5,620	7,874	16.04	\$22,771,510.00
10-11	733	1,476	5,844	8,263	16.55	\$24,548,954.00
11-12	726	1,503	6,353	8,582	16.58	\$25,520,262.04
12-13	762	1,702	6,712	9,176	16.55	\$27,872,659.00
13-14	787	1,697	6,794	9,278	16.67	\$28,820,576.00
14-15	759	1,842	7,575	10,176	16.43	\$31,817,630.00

Data Source: Minnesota Department of Education, Division of School Finance

The table below outlines participation in the last six years among eligible Minnesota postsecondary institutions, with community and technical colleges evidencing the greatest growth at 64 percent, followed by private colleges with a 56 percent increase. Overall, reimbursements to postsecondary institutions have increased 40 percent over the past six years.

PSEO Reimbursement by Institution Type	FY 10	FY 11	FY 12	FY 13	FY 14	FY 15	Percent Increase (2009-15)
Technical Colleges	1,465,291	1,338,694	1,294,860	1,587,160	1,838,069	1,856,469	27%
State Community Colleges	8,726,563	9,558,870	9,972,326	10,513,542	10,468,211	11,644,226	33%
State Universities	1,719,203	1,617,207	1,827,141	2,053,673	1,986,970	2,063,505	20%
University of Minnesota and Campuses	2,455,261	2,705,042	2,649,064	3,102,239	2,721,977	2,767,007	13%
Private Colleges	3,713,747	4,091,442	4,243,002	4,590,918	5,278,832	5,799,849	56%
Community and Technical Colleges	4,691,446	5,237,698	5,533,870	6,025,133	6,526,513	7,686,574	64%
Total	22,771,510	24,548,954	25,520,262	27,872,659	28,820,576	31,817,630	40%

See <u>Appendix E</u> for postsecondary enrollment by institutions and the total number of credits and expenditures.

#### **Recommendations: Postsecondary Enrollment Options (PSEO) Program**

- Continue to provide information to students about <u>Minnesota Statutes, section 124D.09</u>, <u>subdivision 7</u> which requires that by March 1 of each year, a district must provide up-to-date information on the district's website and in materials that are distributed to parents and students about the program, including information about enrollment requirements and the ability to earn postsecondary credit to all pupils in grades 8, 9, 10 and 11.
- Encourage students entering grade 10 to participate in PSEO via career and technical education courses (CTE). Research on the impact of the expansion of PSEO into 10th grade is needed to help inform additional programming.
- Continue to provide information via the <u>Ready Set Go website</u>, MDE's <u>Postsecondary</u> <u>Enrollment Options (PSEO) page</u>, and MDE's <u>Concurrent Enrollment page</u>.
- Provide information to students enrolled in State Approved Alternative Programs about the opportunity to participate in PSEO via Early/Middle College Programs.
- Continue outreach via family engagements events, statewide conferences and workshops.

# **Concurrent Enrollment Program Description**

Concurrent enrollment serves high school students enrolled in a postsecondary course taught during the regular school day and offered through a partnership between a high school and a college or university. Qualified high school instructors or college faculty teach the courses, which are offered at the secondary school or another location, according to an agreement between a public school board and the eligible postsecondary institution (Minnesota Statutes, section 124D.091, Subdivision 10). The same assessment methods and content are used as the equivalent sections taught on the college campus. Students can earn high school and college credit upon successful completion of the course or courses. Students earn a grade based on their work over the entire term of the course and on multiple and varied assessments. College/university credit is granted for successful completion of the course, rather than on the results of a single high stakes test.

#### **Oversight and funding**

Accreditation of postsecondary institutions through the Higher Learning Commission (HLC) and the National Alliance for Concurrent Enrollment Partnerships (NACEP) address questions of quality and rigor in Minnesota concurrent enrollment programs. These accrediting bodies ensure that concurrent enrollment courses offered in high schools are the same courses that are offered on the sponsoring postsecondary institution campus and that students in the high schools are held to the same academic standards as students on campus. NACEP Accreditation Standards and HLC Accreditation Criteria are similar and cover areas such as teacher credentials and preparation, rigor of courses and curricular standards, expectations for student learning and learning outcomes, access to learning resources, and monitoring and oversight. NACEP accreditation also requires program evaluation and student surveys to monitor transferability of credits earned through concurrent enrollment. Learn more about Minnesota Transfer Curriculum (MnTC) (http://www.mntransfer.org/transfer/mntc/t\_mntc.php)

The state reimbursement provides funding to districts to defray the cost of offering college and/or university courses in high schools. Districts are eligible for concurrent enrollment aid if the partnering postsecondary institution is accredited by NACEP, in the process of being accredited, or provides clear evidence of comparable standards. MDE monitors compliance with this statute by requiring non-NACEP accredited programs to sign a letter of assurances indicating the program meets this requirement and is an eligible institution as defined by Minnesota Statutes 124D.09, subdivision 2.

The concurrent enrollment appropriation supports funding of up to \$150 per student, out of a two million dollar appropriation, to districts that offer a concurrent enrollment course according to an agreement under Minnesota Statutes, section 124D.09, subdivisions 10 and 16. Reimbursement amounts continue to decrease as courses and credits increase. Reimbursements are pro-rated based on total concurrent enrollment participation across the state. In FY15, the pro-rated reimbursement was \$30.99/student/course.

#### Teacher credentials and preparation

By requiring that concurrent enrollment programs be NACEP-accredited or meet comparable standards, the state requires that concurrent enrollment teachers be "approved by the respective college/university academic department and meet the academic department's requirements for teaching the college/university courses." Accredited programs or those meeting comparable

standards must also provide "annual discipline-specific professional development activities and ongoing collegial interaction to address course content, course delivery, assessment, evaluation, and/or research development in the field." The Higher Learning Commission also expects that postsecondary institutions require "the same level of credentials and qualifications for faculty in dual credit courses or programs that it does for its regular higher-education courses."

The HLC determines the criteria for faculty qualifications including high school teachers teaching Concurrent Enrollment. For more information, read HLC's updated guidelines: <u>Determining</u> <u>Qualified Faculty Through HLC's Criteria for Accreditation and Assumed Practices</u>. For more information on HLC's Determining Qualified Faculty: <u>Application for Extension of Effective Date of</u> <u>Revised Assumed Practice B.2. and Revised Guidelines on Determining Qualified Faculty</u> <u>Available</u> Update.

#### Transferability of credits

The transferability of credits to other postsecondary institutions is determined by the receiving postsecondary institution. The Minnesota Transfer Curriculum is comprised of general education courses reflecting competencies adopted by the public higher education entities in Minnesota.

- Each system college and university shall implement the Minnesota Transfer Curriculum as appropriate to its academic certificates, diplomas, and degrees consistent with criteria specified in Procedure 3.36.1 Academic Programs.
- Each system college and university shall adopt a policy to implement the Minnesota Transfer Curriculum consistent with Board of Trustees' policies and Chancellor's procedures.
- Each receiving system college and university shall accept a Minnesota Transfer Curriculum course, goal area, or the entire curriculum as determined and documented by the sending system college or university.
- Each receiving system college and university shall accept the entire Minnesota Transfer Curriculum as determined and documented by the University of Minnesota.

For more information regarding transferability of Credits Policy:

<u>Minnesota State Colleges and Universities Transferability of Credits Policy</u> (http://www.mnscu.edu/board/policy/337.html)

<u>University of Minnesota Transferability of Credits Policy</u> (http://policy.umn.edu/education/degreerequirement) Additional concurrent enrollment programs, involving active partnerships and agreements between high schools and postsecondary institutions, are occurring across the state. They have not sought state reimbursement, and therefore are not included or counted in this report.

Concurrent Enrollment Eligible for Aid	FY 10	FY 11	FY 12	FY 13	FY 14	FY 15	Percent Increase (2009-15)

#### **Concurrent Enrollment Program Participation**

\*Data as of February 15, 2015, Minnesota Department of Education, School Finance

See <u>Appendix F</u> for Concurrent Enrollment Aid by District and total Course Count, Credits and Expenditures

## **Recommendations: Concurrent Enrollment Program**

Concurrent enrollment is an increasingly popular option for Minnesota high schools seeking to offer postsecondary opportunities for their students on the high school campus. Greater efforts need to be made to increase the enrollment and success of students of color in these classes. The ability to offer high quality, concurrent enrollment courses to high school students requires effective communication, targeted strategies and partnership between systems. Strategies to support and expand the necessary collaborative professional development between high school and postsecondary faculty should be sought. Additional efforts to promote and support these innovative initiatives are needed.

- Continue to require concurrent enrollment program administrators as well as appropriate system-level administrators from MNSCU or the U of M to sign a letter of assurances indicating the program meets standards comparable to NACEP Accreditation Standards and Higher Learning Commission Accreditation Criteria in order to provide for greater oversight of non-NACEP accredited concurrent enrollment programs. This mirrors NACEP's accreditation process which requires official letters verifying compliance with certain standards.
- Convene a Concurrent Enrollment Advisory Board to develop recommendations for systematically addressing the shortage of high school teachers that currently meet the qualifications to teach college/university courses through concurrent enrollment. The board should include, at a minimum, representatives from graduate teacher programs, the Minnesota Board of Teaching, MNSCU, U of M, concurrent enrollment programs, and Minnesota Concurrent Enrollment Partnerships (MnCEP).
- Provide increased funding for concurrent enrollment, teacher training and credentialing.
- Ensure that eligibility criteria for participating in concurrent enrollment includes indicators of a student's ability to succeed in a postsecondary course or subject, rather than relying solely on indicators of overall academic standing such as GPA or class rank.
- Consider subject or course indicators that might include, for example, performance in prior related courses.

See Appendix G for Concurrent Enrollment by Institutions and the total number of credits.

# **Overall Findings: Dual Credit Programs in Minnesota**

In 2014-2015, total participation in dual credit programs increased while statewide high school enrollment declined slightly. AP and IB program participation (measured by the number of students taking exams) increased by more than 41 percent between 2009 and 2015. PSEO participation (measured by the number of students taking classes) moderately increased over the same sevenyear period (37 percent), from 5,687 to 7,768 public school students. Concurrent Enrollment also experienced an increase in participation (29 percent) between 2009 and 2015, from 21,135 to 27,298.

What are the implications for Minnesota's achievement gap? Although the percentage of students of color increased significantly in all programs, the percentages remained lower than the overall percentage of students of color in the state (29.4 percent). This was the case for AP (16.7 percent students of color in 2015), PSEO (also 21.1 percent in 2015), and Concurrent Enrollment (12.7 percent in 2015). The exception was IB, which had 33 percent students of color in the program in 2015.

As with racial diversity, socioeconomic diversity for all of the programs increased significantly but remained at or below the average for the state. The average enrollment for the state was 38 percent\* in the Free and Reduced Lunch program over the past six years. In 2014-2015, the percentage of low-income student participation in AP was 12 percent, in IB- 30 percent, in PSEO-21 percent, and in Concurrent Enrollment-18 percent.

## **Recommendations: Dual Credit Programs**

Minnesota schools have demonstrated that the legislative support provided to dual credit programs has increased participation, opportunities and raised expectations and outcomes for Minnesota students. Secondary teachers who have participated in AP and IB professional development opportunities have reported their involvement has helped hone their instructional skills, infused rigor into their classes, and provided a source of professional renewal and growth that is highly beneficial to their students. Support for intentional and collaborative professional development opportunities between postsecondary and secondary concurrent enrollment faculty would also have this effect as well as assist in the alignment of secondary and postsecondary curriculum and expectations.

The expansion of pre-AP programs and growth in number of IB Middle Year Program and Primary Year Program schools demonstrates the value districts, as well as individual schools, are placing on providing rigor in the early years to prepare students to successfully engage in AP and IB in high school and attain their postsecondary goals. Programs intending to increase awareness of college and career opportunities and requirements as well as the development of the behaviors and skills necessary for success in rigorous programs need to occur before high school. Programs and supports at the middle level should be expanded and supported.

Additional recommendations include:

- Provide timely and clear information to all students and their parents about the availability of dual credit opportunities as well as the impact they may have on future opportunities, especially targeting low-income, English Learners (EL), first generation and families of color;
- Enhance pathways to postsecondary through supporting collaborations and partnerships between high schools and postsecondary institutions (e.g. "early college");
- Provide support for postsecondary faculty to work with high school faculty to develop aligned interventions and focused support for students while still in high school;
- Provide support for pilot dual credit programs offered at the high school that intend to increase participation of underrepresented groups;
- Provide support to pilot college and career readiness programs offered at the middle school that intend to increase the awareness, readiness and participation of underrepresented groups;
- Conduct additional research, comparing two- and four-year college graduates who did and did not participate in dual credit courses, to learn more about the impact of these programs on students' postsecondary careers; and
- Enhance partnerships through supporting collaborations and partnerships between State-Approved Alternative programs and postsecondary institutions to develop early middle college.

# Appendix A. Advanced Placement and International Baccalaureate Programs 120B.13 ADVANCED PLACEMENT AND INTERNATIONAL BACCALAUREATE PROGRAMS

#### Subdivision 1. Program structure; training programs for teachers.

Critical to schools' educational success is ongoing advanced placement and international baccalaureate-approved teacher training. A secondary teacher assigned by a district to teach an advanced placement or international baccalaureate course or other interested educator may participate in a training program offered by The College Board or International Baccalaureate North America, Inc. The state may pay a portion of the tuition, room, board, and out-of-state travel costs a teacher or other interested educator incurs in participating in a training program. The commissioner shall determine application procedures and deadlines, select teachers and other interested educators to participate in the training program, and determine the payment process and amount of the subsidy. The procedures determined by the commissioner shall, to the extent possible, ensure that advanced placement and international baccalaureate courses become available in all parts of the state and that a variety of course offerings are available in school districts. This subdivision does not prevent teacher or other interested educator participation in training programs offered by The College Board or International Baccalaureate North America, Inc., when tuition is paid by a source other than the state.

#### Subdivision 2. Support programs.

The commissioner shall provide support programs during the school year for teachers who attended the training programs and teachers experienced in teaching advanced placement or international baccalaureate courses. The support programs shall provide teachers with opportunities to share instructional ideas with other teachers. The state may pay the costs of participating in the support programs, including substitute teachers, if necessary, and program affiliation costs.

#### Subdivision 3. Subsidy for examination fees.

The state may pay all or part of the fee for advanced placement or international baccalaureate examinations. The commissioner shall pay all examination fees for all public and nonpublic students of low-income families, as defined by the commissioner, and to the limit of the available appropriation, shall also pay a portion or all of the examination fees for other public and nonpublic students sitting for an advanced placement examination, international baccalaureate examination, or both. The commissioner shall determine procedures for state payments of fees.

#### Subdivision 3a. College credit.

The colleges and universities of the Minnesota State Colleges and Universities system must award, and the University of Minnesota and private postsecondary institutions are encouraged to award, college credit to high school students who receive a score of three or higher on an advanced placement or four or higher on the international baccalaureate program examination.

#### Subdivision 4. Rigorous course taking information; AP, IB, and PSEO.

The commissioner shall submit the following information on rigorous course taking to the education committees of the legislature each year by February 1:

- the number of pupils enrolled in postsecondary enrollment options under section 124D.09, including concurrent enrollment, advanced placement, and international baccalaureate courses in each school district;
- (2) the number of teachers in each district attending training programs offered by the college board, International Baccalaureate North America, Inc., or Minnesota concurrent enrollment programs;
- (3) the number of teachers in each district participating in support programs;
- (4) recent trends in the field of postsecondary enrollment options under section 124D.09, including concurrent enrollment, advanced placement, and international baccalaureate programs;
- (5) expenditures for each category in this section and under sections 124D.09 and 124D.091; and
- (6) other recommendations for the state program or the postsecondary enrollment options under section 124D.09, including concurrent enrollment.

#### Appropriations

#### Session Laws 2013, 88th Legislature, 2013 chapter 116, article 3, section 37, subdivision 10

#### Subdivision 12. Examination fees; teacher training and support programs.

(a) For students' advanced placement and international baccalaureate examination fees under Minnesota Statutes, section 120B.13, subdivision 3, and the training and related costs for teachers and other interested educators under Minnesota Statutes, section 120B.13, subdivision 1:

\$ 4,500,000 ..... 2014

\$ 4,500,000 ..... 2015

(b) The advanced placement program shall receive 75 percent of the appropriation each year and the international baccalaureate program shall receive 25 percent of the appropriation each year. The department, in consultation with representatives of the advanced placement and international baccalaureate programs selected by the Advanced Placement Advisory Council and IBMN, respectively, shall determine the amounts of the expenditures each year for examination fees and training and support programs for each program.

(c) Notwithstanding Minnesota Statutes, section 120B.13, subdivision 1, at least \$500,000 each year is for teachers to attend subject matter summer training programs and follow-up support workshops approved by the advanced placement or international baccalaureate programs. The amount of the subsidy for each teacher attending an advanced placement or international baccalaureate summer training program or workshop shall be the same. The commissioner shall determine the payment process and the amount of the subsidy.

(d) The commissioner shall pay all examination fees for all students of low-income families under Minnesota Statutes, section 120B.13, subdivision 3, and to the extent of available appropriations shall also pay examination fees for students sitting for an advanced placement examination, international baccalaureate examination, or both.
